Dating Stickers

3 ways to implement the Expected Sign Life or the Blanket Replacement Method of maintaining traffic sign retro-reflectivity.

Expected Sign Life METHOD:	<i>Signs must be replaced before they reach the end of their expected sign life. An agency must have documentation of expected replacement for individual signs.</i>
Blanket Replacement METHOD:	<i>The agency will replace all the signs in an area or of a specific series at given intervals. The agency can use stickers that specify installation dates to help them know when to replace all signs in the area or series</i>
Specify Year and Material when ordering.	High Intensity (H) or Engineer Grade (E)

GENERIC DATING STICKER 2 1/4" WIDE x 1 1/8" HIGH	The Generic dating sticker provides the year and you simply punch out the month that applies to either the date of installation or replacement date.	Sign Installation Date Style #DGID(X)15 	 Expected Sign Life Style #DGES(X)25
WARNING MESSAGE DATING STICKER 4" WIDE x 2 1/4" HIGH	The Warning Message dating sticker provides a deterrent to vandalism and theft while still maintaining the date of installation or replacement date.	Sign Installation Date Style #DWID(X)15 	 Expected Sign Life Style #DWES(X)25
UNIQUE DATING STICKER 4" WIDE x 2 1/4" HIGH	The Unique dating sticker serves both purposes listed above while also allowing you to use logos and text of your choosing.	Sign Installation Date Style #DUID(X)15 	 Expected Sign Life Style #DUES(X)25

STEP 1

Choose a Sign Blade Size:

Sizes follow the guidelines in the MUTCD (Manual on Uniform Traffic Control Devices), the national standard used for all roads, including private roads open to public travel.

30" Sign Blade

- ◆ For use on low volume roads with Speed Limits 25 MPH or less
- ◆ 4" Letter Height *minimum*
- ◆ Use with *any* CPC 30" Ornamental Brackets

36" Sign Blade

- ◆ For use on higher volume, conventional roads with Speed Limits over 25 MPH
- ◆ 6" Letter Height *minimum*
- ◆ Use with *any* CPC 36" Ornamental Brackets

NOTE: Sign Sizes do NOT include 3/4" lip

STEP 3

Choose a Post Top Finial:

- ◆ Post Top Finials are powder painted Satin Black to match post and brackets.
- ◆ 3 black set screws to attach to the post are included. *The allen wrench to tighten set screws is NOT included.*

The modular nature of the system allows you to coordinate your street name signs, way-finding signs, mailboxes, entrance signs, and more while creating a decorative look for your town or neighborhood.

CPC is a leader in the Traffic Sign Industry. We pass our knowledge on to you regarding the most current federal regulations governing the manufacture and mounting of traffic and street signs. These regulations deal with subjects such as break-a-way supports, minimum retro-reflectivity, and private roads open to public travel. MUTCD information can be found throughout this catalog to help determine the best products for all your needs.

Glasform Markers

Flexible Markers for Highways

◆ **TRI-FLEX:** This 3-rail marker is one of the most common designs but has been improved by rounding of the back rib. This allows for easier reflective sheeting application and the stress from impacts is spread over a wider area.
Colors: White, Yellow, Orange, Red, Blue, Green and Purple | **Lengths:** 62", 66" or 72".

◆ **FLEX-TOUGH:** Our newest marker is specially designed with a thicker middle section for easier installation into hard soil surfaces. This marker is perfect for applying sheeting on both sides and has tested "superior" to the competition in independent third party impact testing.
Colors: White, Yellow, Orange, Red, Blue, and Green | **Lengths:** 62", 66" or 72".

◆ **DUAL-FLEX:** Because of its increased flexibility and flat area on both sides, the Dual-Flex marker is used primarily on trails and secondary roads where two direction marking is required.
Colors: White, Yellow and Brown
Lengths: 62", 66" or 72".

Also Available:

- ◆ Hiway-Flex, Sign Post, and Boundary Survey Markers.
- ◆ High Intensity reflective sheeting in White or Yellow; 3" x 9" or 3" x 12" lengths.
- ◆ Decals or other sizes, colors, and grades of reflective sheeting.
- ◆ Anchor Barbs, Drivers, Pullers, and Pilot Hole Drivers.
